## **C.U.SHAH UNIVERSITY**

## Winter Examination-2015

**Subject Name: Production & Operation Management** 

Subject Code: 4MS04POM1

Semester: IV

Date: 18/11/205

Time: 02.30 to 05.30

Marks: 70

**Instructions:** 

- (1) Use of Programmable calculator & any other electronic instrument is prohibited.
- (2) Instructions written on main answer book are strictly to be obeyed.
- (3) Draw neat diagrams and figures (if necessary) at right places.
- (4) Assume suitable data if needed.

| Q-1 |            | Attempt the following questions:   | (14) |
|-----|------------|--|------|
|     |            | (MCQ/Short Type of Questions=1 mark*14=14 marks)                                 |      |
|     | a)         | Which of the following are the objectives of production management?              | 1    |
|     |            | (A) Manufacturing cost (B) Manpower  |      |
|     |            | (C) Product Quality (D) All of the above   |      |
|     | <b>b</b> ) | What can be defines as a process of changing inputs into Outputs by adding value | 1    |
|     |            | to an entity?  |      |
|     |            | (A) Services (B) Planning  |      |
|     |            | (C) Financ (D)Operations   |      |
|     | <b>c</b> ) | Process selection and planning is  | 1    |
|     |            | (A)Long term (B) Short term  |      |
|     |            | (C) Operational decision (D) None of above                                       |      |
|     | <b>d</b> ) | An assembly line is an example of  | 1    |
|     |            | (A) Repititive process (B) Specialised process                                   |      |
|     |            | (C) Product focused process (D) Customized process                               |      |
|     | <b>e</b> ) | Dam construction is an example of  | 1    |
|     |            | (A) Job shop process (B) Batch process   |      |
|     |            | (C) Continuous process (D) Project process                                       |      |
|     | f)         | CPM stands for   | 1    |
|     |            | (A) Circular programme machine (B) Critical path method                          |      |
|     |            | (C) Critical programme machine (D) Circular path method                          |      |
|     | g)         | Who has given the theory of Plant location?                                      | 1    |
|     |            | (A) Elton mayo (B) Alferd weber  |      |
|     |            | (C) A.Masl (D) Peter drucker   |      |
|     | h)         | The first step in plant location is  | 1    |
|     |            | (A) To select locality (B) To select region                                      |      |
|     |            | (C) To decide international location (D) To select exact site                    |      |
|     | i)         | Low labour cost is an advantage of   | 1    |
|     |            | (A) Rural area(B) Urban Area   |      |
|     | •          | (C) City area (D) All above  | _    |
|     | j)         | The area located on the outskirts of city area is called                         | 1    |

Page 1 || 2

|            |    | (A)Rural (B) Urban   |   |
|------------|----|--|---|
|            |    | (C) Suburban (D) Separate  |   |
|            | k) | Fixed position layout is known as  |   |
|            |    | (A) Process layout(B) Product layout   |   |
|            |    | (C) Circular Layout (D) Static Layout  |   |
|            | 1) | Strong trade union movement is disadvantage of                                 |   |
|            |    | (A) Rural area(B) Urban Area   |   |
|            |    | (C) Both (D) Neither   |   |
|            | m  | An ideal layout decrease   |   |
|            |    | (A) Production cost(B) Equipment   |   |
|            |    | (C) Profit (D)Sales  |   |
|            | n) |  |   |
|            |    | (A) Process layout(B) Product layout   |   |
|            |    | (C) Fixed layout (D) all above   |   |
|            |    | Attempt any four questions from Q-2 to Q-8                                     |   |
| Q-2        |    | Attempt all questions  | ( |
|            | 1  | Discuss the scope of production management                                     |   |
|            | 2  | What do you mean by inventory? Discuss various types of inventory.             |   |
| <b>Q-3</b> |    | Attempt all questions  | ( |
|            | 1  | What do you mean by Plant location? Discuss various factors affecting to plant |   |
|            |    | location.  |   |
|            | 2  | Write notes on Economic order quantity   |   |
| Q-4        |    | Attempt all questions  | ( |
|            | 1  | Discuss the objectives of good layout  |   |
|            | 2  | What is Project networking? Explain the concept of PERT & CPM.                 |   |
| Q-5        |    | Attempt all questions  | ( |
|            | 1  | Describe the various types of layout   |   |
|            | 2  | write note on Just in time system  |   |
| <b>Q-6</b> |    | Attempt all questions  | ( |
|            | 1  | Write note on Material handling equipment                                      |   |
|            | 2  | Discuss the various concept of TQM   |   |
| Q-7        |    | Attempt all questions  | ( |
|            | 1  | Explain the concept of Time study and Motion study                             |   |
|            | 2  | Discuss the various factor which determine production planning process         |   |
| <b>Q-8</b> |    | Attempt all questions  | ( |
|            | 1  | What is difference between ISO 9000,14000 & 18000?                             |   |
|            | 2  | Discuss the six sigma concept. Write the importance of quality control.        |   |
