EHIOHI	ment No:	Exam Seat No:
	C.U.SHA	AH UNIVERSITY
	Summer	Examination-2016
Subject	t Name : Fundamental of Unix	
Subject	Traine : Lundamental of Chila	
Subject	t Code: 4TE04FOU1	Branch: B.Tech (IT)
Semest	er: 4 Date: 12/05/20	16 Time: 02.30 To 05.30 Marks: 70
(2)	<u> </u>	or & any other electronic instrument is prohibited. swer book are strictly to be obeyed. s (if necessary) at right places
	Assume suitable data if needed	
-1	Attempt the following ques	tions: (14)
a)	• •	
b)	±	
c) d)		
e)	1	
f)		
,		
2)		
g) h)	Explain tan command.	
_	Unix OS was first developed	by
\mathbf{h}	Unix OS was first developed	by stroustrup c) Ken Thompson d)Brian Kernighan
\mathbf{h}	Unix OS was first developed a) Dennis Ritchie b) Bjarne Unix is written in	stroustrup c) Ken Thompson d)Brian Kernighan
h) i)	Unix OS was first developed a) Dennis Ritchie b) Bjarne Unix is written in a) C language b) Ada langu	stroustrup c) Ken Thompson d)Brian Kernighan age c) Perl language d) Pascal language
h) i)	Unix OS was first developed a) Dennis Ritchie b) Bjarne Unix is written in a) C language b) Ada langu How is the parent directory r	stroustrup c) Ken Thompson d)Brian Kernighan age c) Perl language d) Pascal language eferenced in UNIX?

a) cd b) rm c)del d) pwd

Attempt any four questions from Q-2 to Q-8

Attempt all questions
What is UNIX? Explain UNIX architecture.
What is shell? Explain types of shell. Q-2

- a)
- **b**)

(14)

	Attempt all questions	(14)
a)	Explain file structure in UNIX.	
b)	Explain commands for creating and deleting files or directories in UNIX	
	environment.	
	Attempt all questions	(14)
a)	Explain Is command with all option.	
b)	Explain Process state and Zombie Process.	
	Attempt all questions	(14)
a)	<u> </u>	Ì
,	with example.	
b)	Write a shell script to perform arithmetic operations.	
	Attempt all questions	(14)
a)	Write a note on Redirection in UNIX.	
b)	Write a shell script to find minimum value from three numbers.	
	Attempt all questions	(14)
a)	<u> </u>	Ì
b)	Write a shell script to check whether the number is prime or not.	
	Attempt all questions	(14)
a)	List out command of comparing files and explain any two commands.	. ,
b)	Write a shell script to display Fibonacci Series.	
	a) a) b) a) b) a) b) a) b)	 a) Explain file structure in UNIX. b) Explain commands for creating and deleting files or directories in UNIX environment. Attempt all questions a) Explain ls command with all option. b) Explain Process state and Zombie Process. Attempt all questions a) Explain command for count words, characters and lines in UNIX Environment with example. b) Write a shell script to perform arithmetic operations. Attempt all questions a) Write a note on Redirection in UNIX. b) Write a shell script to find minimum value from three numbers. Attempt all questions a) What is process? Explain ps and kill commands with example. b) Write a shell script to check whether the number is prime or not. Attempt all questions a) List out command of comparing files and explain any two commands.
