Q-8 Read the following paragraph and answer the questions given below to it. (14)

Some actors and rock stars are paid almost 100 times as much per year as school teachers. Not to downgrade the role of entertainment in our lives, but these people are not the valuable social resource that educators are. As another example, professional athletes earn vastly more than the nation's fire fighters. Again, there is little doubt that the lower paid group contributes a more vital function to communities. Finally, dress designers, who can make up to \$50,000 for a gown, far out-earn police officers, whose very presence makes our cities and towns liveable.
