AIM:
- This course provides the knowledge necessary to understand java and develop dynamic web pages using java server page (JSP) & Servlets.
- It covers the basic underlying concepts and techniques recently used in the IT industry.
- After going through this course student will be able to do Web Development and Desktop Application Development.

COURSE CONTENTS

Unit I Introduction to Swing   **10 Hrs.**
- Introduction to swing, Difference between swing and AWT
- Various container classes
- Layout managers (FlowLayout, BorderLayout, GridLayout, GridBagLayout, CardLayout)
- Swing components (JLabel, JTextArea, JTextField, JButton, JCheckBox, JCheckBoxGroup, JRadioButton, JPasswordField, JComboBox, JList, JFrame)

Unit II Java Database Connectivity (JDBC)   **10 Hrs.**
- Overview of JDBC and its architecture
- Various JDBC drivers
- Database exception handling
- java.sql package (JDBC API for connectivity)
- Connection class
- Statement class
- PreparedStatement class
- CallableStatement class
- ResultsetMetaData class
- DatabaseMetaData class
- Java program connectivity to MySQL, Ms-Access or Oracle

Unit III Introduction to J2EE   **04 Hrs.**
- Overview of J2EE and J2EE Platform
- Introduction to J2EE APIs
- Enterprise Architecture Styles (Two-tier, Three-tier and N-tier architecture)
- Overview of web containers

Unit IV Java Servlets   **12 Hrs.**
- Overview of Servlet and its architecture
- Lifecycle of Servlet
- Servlet API (javax.servlet and javax.servlet.http)
- Creating, deploying and running Servlets
- Handling Servlet request and response
- Reading Servlet initialization parameters
- Session tracking methods
- Servlet programs with JDBC

Unit V Java Server Pages (JSP)   **12 Hrs.**
- Introduction to JSP and its architecture
- Difference between JSP and Servlet
- JSP Lifecycle
- JSP directive elements
- JSP scripting elements
- JSP action elements
- JSP implicit objects
- JSP scope
- Include action
- Forward action
- Cookie and Session management using JSP
- Error & Exception handling in JSP
- JDBC connectivity programs using JSP
