Guidelines for Project Development- II

- The final semester project may be designed to develop a better product or a better application or a better process based on the need of the industry / research organization / Govt. organization / socio-technical issue.
- As per guidelines given, at the end of semester-7 and before starting the semester-8, all the students have to visit two industries and have to submit the visit report to the department. Based on their visit students may allow to start their work related to project if they found appropriate problem definition.
- Within two weeks of commencement of academic session, the student will take review inputs from the faculty member, who is to be their Guide for the project. Students will then submit a report on the problem definition to the department.
- However in certain situation students are also allowed to extend their work which is already done during 7th semester as ‘Project Development - I’ for ‘Project Development - II’. For that it is required to submit a proposal to the respective Head of Department, which contains the quantum of work and future scope.
- Maximum two students in a group are allowed to work.

- As a part of continuous assessment, students have to give presentation on regular basis as scheduled by the department and required to submit the **progressive report** along with power point slide **in soft copy and hard copy**.
- At the end of the semester, students have to submit complete report of their project in hard and soft copy.
- Students must follow all the rules and instructions issued by department.
