	Continuous Assessment	---	---	---	---	4	---	---	---	---	---	100	---	100
	Total	0	0	14	14	11	---	---	---	---	---	150	200	350

Guidelines for Major Project

- Final semester project should be based upon the real life problem of an industry/ research organization / Govt. organization / socio-technical issue.
- Students are required to identify their research problem during the winter and they are required to follow all the rules and instructions issued by department, for safety and other requirements.
- As per guidelines given, at the end of semester 7th and before starting the semester 8th all the students must have to visit two industries and they have to submit the visit report to the department head. Based on this visit students may allow to start their work related to Major Project if they found appropriate problem definition.
- Within two weeks of commencement of academic session, the student will take review inputs from the faculty member, who is to be his Guide for the Major Project. He/ She will then submit a report on the problem to the HOD.
- The final semester project may be designed to develop a better product or a better process based on the need of the industry research organization / Govt. organization / socio-technical issue.
- However in certain situation students are also allowed to extend their work which is already done during 7th semester as 'Project' for 'Major Project'. For that it is

required to submit a proposal to HOD, which contains the quantum of work and future scope.

- Maximum three students in a group are allowed to work.
- As a part of continuous assessment, students have to give monthly presentation in the department and required to submit the progressive report along with power point slide in soft and hard copy.
- At the end of the semester students has to submit complete report in hard and soft copy.
