Dear Members/ Select Non-Members,

CII Online Master Class on “Waste to Energy Conversion”

16th June 2016: 1500-1730 hrs: Live Broadcast

Confederation of Indian Industry(CII) is conducting a “Webinar on Waste to Energy Conversion” on 16th June 2016 from 1500-1730 hrs.

With the migration of people from urban areas and as incomes increase, consumption levels are likely to rise, as are the rates of waste generation. In addition, large quantities of solid and liquid wastes are generated by industries. This has significant impacts on the amount of land that is and will be needed for disposal, economic costs of collecting and transporting waste, and the environmental consequences of increased MSW generation levels. The problems caused by solid and liquid wastes can be significantly mitigated through the adoption of environment-friendly waste-to-energy technologies that will allow treatment and processing of wastes before their disposal. These measures would reduce the quantity of wastes, generate a substantial quantity of energy from them, and greatly reduce environmental pollution.

Given this, CII is organising this “ Webinar on Waste to Energy Conversion” on 16th June 2016 from 1500-1730 hrs through online.

Objective of the Webinar:

To encourage industry and to make them understand the importance of conversion of Waste to Energy.

To make industry aware of the all the technology options available for energy recovery from urban and industrial wastes.

To help industry aware of the various financial incentives and other eligibility criteria proposed by MNRE to encourage industries.

To make stakeholders realise that it serves a dual role of waste disposal and energy production.

Speakers :

Mr D B SSR Sastry, Associate Vice President, Ramky Enviro Engineers

Mr DBSSR Sastry is the Associate Vice President at the Solid Waste Management Division of Ramky Enviro Engineers Ltd. His rich experience and comprehensive knowledge has been a driving factor for the company which has been instrumental in implementing several key projects in the country.

Mr K Srinivasa Rao, Group Head, Business Development, India & Subcontinent, Hitachi Zosen India Private Ltd

Mr Rao has been in Waste to Energy profession for the last 16 years. He is the Advisor for Andhra Pradesh technology development and promotion center (APTDC) for their waste management initiatives. Mr. Rao also an Vice President of Waste to Energy Research and Technology Council.

Registration Fee(including 15% service tax): (per link)

CII Member: Rs 1150/-

Non Member: Rs 1725/-

To Register please send the details below:

Name of the company:

Participants Name & Designation:

E-mail id of the participant:

Contact number:

The fee can be paid online, otherwise by Cheque/DD raised in the name of “Confederation of Indian Industry” payable at Chennai and can be sent to the address mentioned below.

For more details please contact:
